

2026 AGENDA

HARNESS THE POWER OF AI IN GXP

Driving the 5.0 Evolution of
Manufacturing, Validation, and Beyond

NOVEMBER 19-20, 2026 | SINGAPORE

Operationalize Compliance. Rethink Validation. Govern and Implement AI.

SPONSORS

Meet the Faculty Driving Industry Excellence

Ahmed Al-Shehab
Chief Strategy Officer -
AI Solutions
(Pharma /Biotech)

Helene Mayne
Director of Customer
Success
AIQURIS

Jesmond Hong
INCIT

Giovana Mobiglia
Senior Process
Validation Engineer
Pfizer

Taha Jilani
Associate Director,
IT Compliance &
AI Assurance
Otsuka

Barry Prabhu
Managing Director
Novatek

Alex Kaplunov
Chief Technical Officer
MasterControl

Ken Shitamoto
Executive Director IT
Gilead

Ian Lucas
Director / Training
Manager
SeerPharma

David W. Vincent
Chief Executive Officer
VTI Life Sciences

8:00-8:20	Registration and Continental Breakfast
8:20-8:30	Chairperson's Opening Remarks
8:40-9:20 Holistic AI in GXP	A Holistic Governance Framework for AI in GXP <i>Explores event governance using a Unified Namespace and Process Mining to ensure control over the data and processes.</i> Ian Lucas, Director / Training Manager at SeerPharma
9:30-10:30 All Industry Panel Discussion	From Idea to Proof of Concept: How Enterprises Pilot AI in GxP <i>A high-level look at how AI initiatives are framed, tested, and governed in regulated environments</i> Moderator: Ahmed Al-Shehab, Chief Strategy Officer - AI Solutions (Pharma /Biotech) Panelists: Ian Lucas, Director / Training Manager at SeerPharma ; Ken Shitamoto, Executive Director IT, Gilead
10:40-11:20 Accountable Intelligence	Human-in-the-Loop Is Not Enough: Designing Accountability for AI in GxP Systems <i>Designing accountability beyond human review for trustworthy AI</i> Ken Shitamoto,Executive Director IT, Gilead
11:20-11:40	Exhibitor Showroom and Networking Refreshment Break
11:40-12:20 Cleaning Validation	Automate Cleaning Verification and MACO Analysis <i>Use AI models to support control strategies, alerts, and cleaning risk insights</i> David W. Vincent, Chief Executive Officer, VTI Life Sciences
12:30-1:10	Lunch & Learns - Choose Between:
Audit Trail Automation	Architecting AI-Driven Audit Trail Review for Continuous Compliance <i>From Static logs to active intelligence: Move beyond verification and towards insight</i> TBD
AI Driven Learning Systems	Capture Tribal Knowledge with AI-Driven Learning Systems <i>Keep institutional insights accessible and adaptable as teams evolve</i> Ahmed Al-Shehab, Chief Strategy Officer - AI Solutions (Pharma /Biotech)

1:20-2:00 Unlocking Intelligence	Unlocking Manufacturing & Quality Intelligence <i>The AI Advantage in Regulated Environments: Human-Centered AI for Compliance-First Manufacturing & Quality Excellence</i> Alex Kaplunov, Chief Technical Officer, MasterControl
2:10-2:50 Continuous Validation	Establish Continuous Validation Through Real-Time Monitoring <i>Move beyond snapshots and toward constant assurance using smart tools</i> Giovana Mobiglia, Senior Process Validation Engineer, Pfizer
3:00-3:40 Operationalization	Operationalizing AI in GxP <i>Practical approaches for implementing AI governance, assurance, and compliance within regulated GxP environments</i> Taha Jilani, Associate Director, IT Compliance & AI Assurance, Otsuka
3:40-4:40	Speed Networking
4:40-5:20 Digitalization	The Bridge to AI: Digitalization of the contamination control process <i>Digitalizing Contamination control to advance trustworthy AI Adoption</i> Barry Prabhu, Managing Director, Novatek
5:30-6:10 Risk-based Assurance	From Validation Evidence to Trust: Risk-Based Assurance for AI-Enabled GxP Systems <i>Dynamic assurance frameworks that build real confidence in AI-driven decision-making</i> Giovana Mobiglia, Senior Process Validation Engineer, Pfizer
6:15-7:15	Networking Cocktail Reception

8:00-8:20	Exhibitor Showroom Opens and Lite Breakfast
8:30-9:10 Cleanroom + Contamination Control	AI-Powered Vision Systems to Detect and Prevent Cleanroom Defects and Contamination <i>Transforming QC protocols in microelectronics and life sciences environment through real-time, LLM-enhanced computer vision</i> David W. Vincent, Chief Executive Officer, VTI Life Sciences
9:20-10:00 AI Risk Management	Deep Dive into the NIST AI Risk Management Framework (AI RMF) <i>Exploring NIST AI Risk Framework for trustworthy implementation</i> Taha Jilani, Associate Director, IT Compliance & AI Assurance, Otsuka
10:10-10:50 Internal Audits + Document Review	Using AI to Modernize Internal Audits and Document Review <i>Practical approaches to applying AI across quality documents, audit preparation, and continuous compliance</i> David W. Vincent, Chief Executive Officer, VTI Life Sciences
10:50-11:10	Exhibitor Showroom and Networking Refreshment Break
11:10-11:50 SIRI and AIMRI	SIRI and AIMRI Jesmond Hong, INCIT
12-12:40 Training & Knowledge Management	Upskilling for an AI Future: How Are You Preparing Your Workforce <i>Practical strategies for building AI literacy across organizations of all sizes</i> Ahmed Al-Shehab, Chief Strategy Officer - AI Solutions (Pharma /Biotech)
12:50-1:30	Lunch & Learns - Choose Between:
Validation Documentation	Accelerate Validation Documentation with GenAI Assistants <i>Reduce burden in test scripts, SOPs, and reports while staying audit-ready</i> Giovana Mobiglia, Senior Process Validation Engineer, Pfizer
Batch Record Intelligence	Go Beyond Digitization with Predictive Electronic Batch Records <i>Turn batch data into insight engines for continuous improvement</i> TBD

1:40-2:20 Digital Twin	A Digital Twin for Training and Competency Assessment Explores both a GxP competency assessment framework to benchmark industry skills and the use of a digital twin to assist with personalised training plans Ian Lucas, Director / Training Manager at SeerPharma
2:30-3:10 Incident Reporting	AI Incident Reporting Reporting AI Incidents: Building a Safer AI Ecosystem Taha Jilani, Associate Director, IT Compliance & AI Assurance, Otsuka
3:20-4:00 CAPA & Deviation Management	How AI Is Transforming Deviations - and the Evolving Role of Quality Reframe Quality from a compliance obligation into a continuous improvement engine Alex Kaplunov, Chief Technical Officer, MasterControl
4:00-4:20	Exhibitor Showroom and Refreshment Break
4:20-5 Ask an Expert	"Ask an Expert" AI Expert Forum and interactive discussion Ian Lucas, Director / Training Manager at SeerPharma
5:10-5:50 AI Deployment	Minimum Viable Product (MVP) for AI in GxP Defining the smallest inspection-ready AI product across clinical trials and digital health – balancing governance, supplier risk, privacy, and real-world value Helene Mayne, Director of Customer Success, AIQURIS
	Close of Conference

REGISTRATION

Advance Rate available for the first 15 attendees until September 18th with pricing starting at \$1,595.
